Luther,

Now that the opening of the MGM Grand Detroit is complete and we have had time to settle in, I wanted to take time to thank you for the service ISR provided during that time. There were many issues we needed to deal with and your team's part in providing our hardware/software, staging our equipment, and removing/destroying/reselling our old systems, was key in making our opening a success.

I especially appreciated your ability to be flexible as the rules of engagement changed.

I look forward to our continued relationship and the service your team provides for us on an ongoing basis.

Sincerely,

Ruthanne Largent
Assistant Vice President IT, MGM Grand Detroit
